Great Plains 1006NT Drill Rental Agreement

This agreement is intended to provide the Carver Soil and Water Conservation District, henceforth known as the "District" and the Landowner/Operator with a clear understanding of the duties and responsibilities designated to each party.

*See the reversed side of the page for specific rental charges for use of the drill. It is agreed that these charges shall be paid within 30 days from the date of invoice. ***A 1.5% monthly service charge will be added after the 30 days.***

District Responsibility

1. The District shall deliver and pick up the drill at a mutually agreed-upon accessible location. The Landowner/Operator is responsible for ensuring suitable access for delivery and retrieval.
2. The District shall provide any needed instructions regarding the use, care and calibration of the drill in-person.
3. The District shall properly document any known mechanical or operational defects/problems before leaving the premises.
4. The District makes no warranty regarding seed placement, germination, planting conditions, or final crop outcomes.
5. The District will bill the landowner/operator for all planted acres based on the acre meter, rounded up to the nearest tenth of an acre.

Landowner/Operator Responsibilities

1. The landowner/operator agrees to pay the district the rental charge posted on the reverse side of this agreement. Charges posted on the reverse are subject to change annually.
2. The Landowner/Operator shall pay a **refundable \$250 damage deposit**. The deposit will be retained only to cover repair or replacement costs resulting from damage beyond ordinary wear. A written explanation will be provided if any portion is withheld.
3. The landowner/operator shall exercise normal and reasonable care of the drill while in his/her possession. If the landowner/operator decides to plant when field conditions are wet, he/she agrees to clean the drill so that coulters, planting discs and packer wheels are free of excessive mud and debris.
4. If the District must clean the drill of excessive mud and debris for the next usage, a **service fee of \$100 will be applied** to the final invoice to cover cleaning time and labor.
5. The District must be notified immediately upon completion of planting to ensure timely delivery to the next landowner/operator.

Effective Date: April 16, 2026

Hold Harmless and Indemnification

To the fullest extent permitted by law, the Landowner/Operator agrees to indemnify and hold harmless Carver County and/or the Carver SWCD, including their officers, employees, agents, and representatives, from any claims, damages, losses, or expenses arising from the Landowner/Operator's use of the drill, except to the extent caused by the negligence or willful misconduct of the District.

I have read, understand and fully agree with the terms as stated in this agreement. I understand that any infringement may be subject to additional payments, penalties or waiver of recovery for damages. **Please sign below.**
